

A FAMILY BUSINESS YOU CAN TRUST **DELIVERING OUTSTANDING SERVICE**

Your one-stop business partner for all technology solutions in IT, Telecoms and Managed Print.

SUPPORTING YOUR SUSTAINABILITY GOALS

iNREACH have partnered with Treeapp to help towards sustainability goals for us and our clients.

THE SOLUTION IS NOW **iNREACH**

Founded in September 1998, we are proud to celebrate 25 years in business – a quarter of a century of unwavering commitment to innovation, excellence, and partnership.

Our dedicated, professional experts can assist with everything from auditing and planning to implementation and support of your next technology project. We will provide you with the solution you need and a better, more cost effective solution than you currently have.

Our commitment to excellence has driven us to continuously expand our portfolio, offering services ranging from Managed IT Support, Hosted and Mobile Business Telecommunications to Document Management Solutions.

HOW TO CHANGE YOUR SUPPLIER TO **iNREACH**

Ready to make the switch to iNREACH? Here's how easy it can be:

1.

Arrange a meeting with one of our team

2.

We'll prepare a cost comparison to meet your business needs

3.

We remove old equipment, install new solutions and provide training

4.

Quarterly reports and six-monthly reviews mean your fleet is managed efficiently

SUPPORTING THE ENVIRONMENT 1 TREE AT A TIME

In order to help offset your paper use over the life of your contract, we plant trees across the UK and the rest of the world, reforesting trees in the places where paper production occurs.

We are committed to plant trees for every solution supplied.

1 regular 40ft tall tree = 8,350 A4 pages (or approximately 37.2kg of paper).

109kg of Carbon is absorbed per tree per year.

WHAT IS **TREEAPP**?

The primary objective of Treeapp is to enhance our planet by planting millions of trees daily, as deforestation remains a significant threat to our environment. To support this crucial mission, we have joined forces with Treeapp. Planting more trees not only results in the growth of more life but also increases job opportunities for locals within various communities.
